Readme First

Complete the following activities in order:

1. Read the Course Syllabus & Information document
2. Take the pre-assessment quiz.
3. Study the Basic-Concepts-Systems-Engineering document
4. Study the Overview-Systems-Engineering document
5. Download the Online-Assignment, complete the assignment using appropriate tools, generate a PDF file, and Email the PDF version to the instructor. Deadline: June 15th at midnight.

NOTES
1. Do not be concerned if you get a low score in the pre-assessment quiz as this will not be taken into account for your final score. The post-assessment quiz will be similar but not the same as the pre-assessment quiz.
2. If some of the questions in the assignments are not clear, make whatever assumption is required to proceed and answer the question as is but document your assumptions accordingly in the same document. We will discuss some of these during the face-to-face meetings of days 1 and 2 rather than via Emails.
3. Email of the instructor: juanpimentel882@gmail.com
